Portfolio Website: <https://portfolio-yxcz.onrender.com>

SUMMARY

Full Stack Developer with hands-on experience in building responsive web applications using React, Node.js, Express.js, and MySQL/MongoDB. Skilled in developing REST APIs, integrating databases, and creating seamless user experiences. Passionate about solving real-world problems through clean, scalable, and efficient software solutions.

TECHNICAL SKILLS

- **Languages:** C, C++, Python, JavaScript, SQL
- **Web Tech:** HTML5, CSS3, Bootstrap, React.js, Node.js, Express.js, REST APIs, Responsive Design, State Management, Full Stack Development
- **Databases:** MongoDB, MySQL, Database Design, CRUD Operations
- **Tools & Tech:** Git, GitHub, API Integration, JWT Authentication, Role-Based Access Control (RBAC), Deployment, Arduino, MATLAB, Figma
- **Competencies:** Problem Solving, Data Structures & Algorithms (DSA), Debugging, Authentication, Authorization, IoT Applications

EDUCATION

- **B.Tech - Electronics & Communication Engineering** — PSIT Kanpur | Score: 6.8 CGPA (2023 – 2027)
- **12th Intermediate (PCM)** — Saraswati Vidya Mandir Inter College | Score: 64.8% (2022)
- **10th High School** — Gola Public Inter College | Score: 75.5% (2020)

PROJECTS

ATOM – Goal Setting & Tracking Portal | *React.js, Node.js, Express.js, MongoDB*

[GitHub: github.com/Sonuverma0625/Atom](https://github.com/Sonuverma0625/Atom) | [Live Demo: atom-gkdo.onrender.com](https://atom-gkdo.onrender.com)

- Built a portal that automates internal company workflows, with separate access levels for Admins, Managers, and Employees using JWT authentication and role-based access control (RBAC).
- Added dashboards backed by CRUD APIs so teams can track tasks and goals in real time, with state managed cleanly on the frontend.

Coffee Shop Management Website | *React.js, Node.js, Express.js, MongoDB*

[GitHub: github.com/Sonuverma0625/Darkside-Coffee](https://github.com/Sonuverma0625/Darkside-Coffee) | [Live Demo: darkside-coffee.onrender.com](https://darkside-coffee.onrender.com)

- Built a coffee ordering site with a persistent shopping cart, live order tracking, and a smooth, responsive checkout flow.
- Connected the frontend to a Node.js/Express backend and MongoDB database, and integrated a secure payment flow end to end.

E-Commerce Web Application | *React.js, Node.js, Express.js, MongoDB*

[GitHub: github.com/Sonuverma0625/E-commerce-websites](https://github.com/Sonuverma0625/E-commerce-websites) | [Live Demo: darkside-ecom.onrender.com](https://darkside-ecom.onrender.com)

- Designed REST APIs to handle product listings, carts, and orders, backed by a MongoDB database structured for fast queries.
- Implemented secure login and token-based authentication so user data and order history stay protected, and deployed the full app to a live server.

Portfolio Website | *React.js, Node.js, Express.js*

[GitHub: github.com/Sonuverma0625/Portfolio](https://github.com/Sonuverma0625/Portfolio) | [Live Demo: portfolio-yxcz.onrender.com](https://portfolio-yxcz.onrender.com)

- Designed and built a personal portfolio site to showcase my projects, skills, and resume, with a clean, responsive layout that works well on mobile and desktop.
- Deployed the site live and set it up so updates can be pushed and reflected automatically.

EXPERIENCE & INTERSHIPS

AI / ML Intern — *Edunet Foundation (AICTE)*

Dec 2025 – Jan 2026

- Built and trained machine learning models on real datasets using Python and Scikit-learn, covering the full pipeline from raw data to predictions.
- Worked on data cleaning, feature selection, and visualizations to better understand the data before modeling, and validated models to check their accuracy.

CERTIFICATIONS & ACHIEVEMENTS

- **Certifications:** AWS Cloud Practitioner Essentials | GenAI Powered Data Analytics (TATA) | Software Engineering simulations (JP Morgan, Accenture).
- **LeetCode & HackerRank:** Solved 350+ coding questions with an active 365-Day Badge; earned 5-star Problem Solving and 4-star C++ credentials.
- **Competitions:** Ranked 360th out of thousands of participants in the Codequest #29 Challenge hosted by Naukri Campus (March 2026).
- **Hackathons:** Recognized as a National-level competitor in the EY Techathon 6 technology innovation competition by Ernst & Young.
