

SUMMARY

Sustained Full Stack Developer and MERN Stack Developer proficient in software engineer initiatives across dynamic web developer stacks. Expert in React.js, Node.js, Express.js, MongoDB, MySQL, and robust REST APIs. Demonstrated proficiency in implementation of state management systems, full stack development, secure authentication methodologies, and complex authorization schemas. Strong frontend developer and backend developer skillset focused on responsive design layouts, dynamic circuit setups, and debugging operational flows via git systems. Open to challenging Software Engineer, Full Stack Developer, and Web Developer roles.

TECHNICAL SKILLS

Languages:	C, C++, Python, JavaScript, SQL
Web Tech:	HTML5, CSS3, Bootstrap, React.js, Node.js, Express.js, REST APIs, Responsive Design, State Management, Full Stack Development
Databases:	MongoDB, MySQL, Database Design, CRUD Operations
Tools & Tech:	Git, GitHub, API Integration, JWT Authentication, Role-Based Access Control (RBAC), Deployment, Arduino, MATLAB, Figma
Competencies:	Problem Solving, Data Structures & Algorithms (DSA), Debugging, Authentication, Authorization, IoT Applications

EDUCATION

B.Tech - Electronics & Communication Engineering — <i>PSIT Kanpur</i> Score: 6.8 CGPA	2023 – 2027
12th Intermediate (PCM) — <i>Saraswati Vidya Mandir Inter College</i> Score: 64.8%	2022
10th High School — <i>Gola Public Inter College</i> Score: 75.5%	2020

PROJECTS

ATOM – Goal Setting & Tracking Portal | *React.js, Node.js, Express.js, MongoDB*

GitHub: <https://github.com/Sonuverma0625/atom-project> | Live Demo: <https://your-live-demo.vercel.app>

- Engineered an enterprise portal automating corporate workflows with role-based JWT Authentication and Role-Based Access Control (RBAC) across Admins, Managers, and Employees.
- Built performance dashboards executing continuous CRUD Operations, secure API Integration, and modern state management to expand operational data streams.

Coffee Shop Management Website | *React.js, Node.js, Express.js, MongoDB*

GitHub: <https://github.com/Sonuverma0625/coffee-shop> | Live Demo: <https://coffee-shop.onrender.com>

- Developed a commercial coffee ordering system featuring interactive frontend developer state management, persistent shopping carts, and live backend developer order validation.
- Integrated secure payment gateways alongside comprehensive structural database design patterns to achieve seamless browser deployment paths and absolute responsive design execution.

E-Commerce Web Application | *React.js, Node.js, Express.js, MongoDB*

GitHub: <https://github.com/Sonuverma0625/ecommerce> | Live Demo: <https://ecommerce-demo.vercel.app>

- Designed a scalable REST APIs infrastructure handling heavy client side transaction requests, linked dynamically to custom database collections.
- Implemented granular authentication and secure token authorization systems over safe deployment servers using Git version protocols to safeguard consumer data profiles.

Portfolio Website | *React.js, Node.js, Express.js*

GitHub: <https://github.com/Sonuverma0625/portfolio> | Live Demo: <https://portfolio-yxcz.onrender.com>

- Crafted a responsive design web architecture integrating modern browser layouts to showcase developer capability, optimizing assets for fast browser parsing.
- Built a production tracking system deploying continuous database updates to monitor incoming client connection requests seamlessly.

EXPERIENCE & INTERNSHIPS

AI / ML Intern — *Edunet Foundation (AICTE)*

Dec 2025 – Jan 2026

- Engineered predictive machine learning models by designing efficient pipeline architectures leveraging Python and Scikit-learn datasets.
- Conducted deep data preprocessing, feature selection, exploratory visualizations, and continuous model validation via automated code routines.

CERTIFICATIONS & ACHIEVEMENTS

- Certifications:** AWS Cloud Practitioner Essentials | GenAI Powered Data Analytics (TATA) | Software Engineering simulations (JP Morgan, Accenture).
- LeetCode & HackerRank:** Solved 350+ coding questions with an active 365-Day Badge; earned 5-star Problem Solving and 4-star C++ credentials.
- Competitions:** Ranked 360th out of thousands of participants in the Codequest #29 Challenge hosted by Naukri Campus (March 2026).
- Hackathons:** Recognized as a National-level competitor in the EY Techathon 6 technology innovation competition by Ernst & Young.
